## Product Description

### Product Description:

This brake parts product is designed to be a universal fitment, which means that it is compatible with a wide range of electric motorcycles. This makes it an ideal choice for those who want an easy and hassle-free installation experience. The brake parts product is also designed to be a direct replacement, making it easy to install without having to modify your electric motorcycle's brake system.

The DUKATI brake parts product is a bolt-on installation, which means that it can be installed quickly and easily. This makes it an ideal choice for those who want to upgrade their electric motorcycle's brake system without having to spend a lot of time and money on installation costs.

The DUKATI brake parts product is also lightweight, weighing in at just 2.5 lbs. This makes it an ideal choice for those who want to reduce the weight of their electric motorcycle, which can lead to improved performance and handling.

The package contents of this brake parts product include 1 x brake caliper, 2 x brake pads, and 1 x brake rotor. These components are all designed to work together seamlessly, providing you with a high-quality braking system that will help you stop quickly and safely.

In summary, if you are looking for a high-quality brake and clutch parts product that is compatible with virtually all electric motorcycles, then the DUKATI brake parts product is the perfect choice for you. With its easy bolt-on installation, lightweight design, and comprehensive package contents, this brake parts product is an ideal upgrade for anyone who wants to improve the performance and safety of their electric motorcycle.

### Features:

Product Name: DUKATI motorcycle brake parts

Package Contents:

1 X Brake Caliper

2 X Brake Pads

1 X Brake Rotor

Weight: 2.5 Lbs

Part Number: DUK-123

Warranty: 1 Year

Type: Disc Brake

Keywords: Brake And Clutch Parts, Electric Bike Parts, Brake And Clutch Parts

### Technical Parameters:

Type	Disc Brake
Warranty	1 Year
Weight	2.5 Lbs
Position	Front
Country Of Origin	Italy
Fitment	Direct Replacement
Compatibility	Universal
Package Contents	1 X Brake Caliper, 2 X Brake Pads, 1 X Brake Rotor
Installation	Bolt-on
Material	Aluminum

### Applications:

The DUKATI motorcycle brake parts are a direct replacement for the original parts, making them easy to install. They are designed to work seamlessly with the front position of the motorcycle. These disc brake parts are made in Italy, ensuring that they are of the best quality.

DUKATI motorcycle brake parts are perfect for a wide range of applications and scenarios. They are ideal for electric bike parts, especially for riders who require high-quality brake parts. DUKATI motorcycle brake parts are also suitable for various types of motorcycles, including sports bikes, cruisers and touring bikes.

The DUKATI motorcycle brake parts are highly durable and come with a 1-year warranty, which shows the confidence that the manufacturer has in their products. This warranty ensures that buyers can use the products with peace of mind, knowing that they are getting a high-quality product that is guaranteed to last.

In conclusion, if you are in the market for reliable, efficient and durable electric bike spare parts, then DUKATI motorcycle brake parts are an excellent choice. Their direct replacement design, front position fitment, Italian origin, and disc brake type make them suitable for a wide range of applications and scenarios. With a minimum order quantity of 100, they are perfect for retailers and wholesalers who are looking to stock high-quality electric bike parts.
