

## OEM Standard Copper Based Motorcycle Brake Pads Strong Stopping Power for Honda CRF R X 450 250

Our Product Introduction

for more products please visit us on [motorbrakeparts.com](http://motorbrakeparts.com)

### Basic Information

- Place of Origin: China
- Certification: CE
- Model Number: CG125
- Minimum Order Quantity: 10

### Product Specification

- Stopping Power: Strong
- Suit For: Honda CRF R X 450 250
- Quality: OEM Standard
- Product Type: Motorcycle Parts & Accessories
- Oem Replacement: OK
- Back Plate: Copper Based
- Friction Coefficient: High Friction Coefficient
- Durability: Long Lasting
- Highlight: **copper based motorcycle brake pads, motorcycle brake pads strong stopping, oem front brake pads motorcycle**

### Product Description:

Our Motorcycle Brake Pad Parts are specifically designed for MX Bikes, ensuring a perfect fit and compatibility with your vehicle. They are made from top-quality materials to provide you with long-lasting durability and consistent stopping power. You can rely on our products to give you the performance you need, whether you're cruising on the highway or riding off-road.

We take pride in our commitment to offering custom service to our customers. Our team is always ready to assist you with your specific needs and requirements. We can provide you with personalized recommendations and advice on the best products to suit your needs. We understand that every rider has unique needs and preferences, and we are dedicated to providing you with the best possible service. Our Motorcycle Brake Pad Parts fall under the category of Motorcycle Parts & Accessories. We are proud to offer a wide range of products to cater to the needs of motorcycle enthusiasts. We understand that maintaining and upgrading your bike is essential to ensure its optimal performance. That's why we offer a comprehensive selection of parts and accessories to help you achieve your goals.

We take pride in our products' high-performance capabilities. Our Front Brake Pads are designed to deliver exceptional stopping power, even in the most challenging conditions. You can trust our products to provide you with the confidence and safety you need while riding your MX Bike. Our products are designed to provide you with a smooth and responsive braking experience, which is essential for any rider.

In conclusion, our high-performance Motorcycle Brake Pad Parts are the perfect solution for MX Bike riders who demand the best. Whether you're looking for Front Brake Pads or Rear Brake Pads, we have the products you need to keep your bike running smoothly and safely. Our commitment to quality, performance, and customer service sets us apart from our competitors. Contact us today to learn more about our products and how we can help you upgrade your bike.

### Features:

- Product Name: Motorcycle brake pad
- Durability: Long Lasting
- Back Plate: Copper Based
- Noise Level: Low Noise
- OEM Replacement: OK
- Surface: Copper Based
- Ceramic Brake Pads
- Brake Pad Parts
- Front Brake Pads

### Technical Parameters:

Attribute	Value
Product	Front Brake Pads
Custom Service	OK
Application For	MX Bike
Friction Coefficient	High Friction Coefficient
Stopping Power	Strong
Durability	Long Lasting
OEM Replacement	OK
Performance	High Performance
Model	Pulsar 180/135
Package Contents	1 Pair Of Brake Pads
Back Plate	Copper Based
Brake Pad	Ceramic Brake Pads

### Applications:

The Motorcycle Brake Pad Model Number CG125 is designed for MX Bike application, making it ideal for off-road racing and other activities that require strong stopping power. The high friction coefficient of this product provides excellent braking performance, ensuring that the bike stops quickly and safely. The low noise level of the brake pads ensures that the rider can focus on the task at hand without being distracted by excessive noise.

The Motorcycle Brake Pad Model Number CG125 is compatible with various brake plate types, making it easy to install and use. The brake pad parts are made from high-quality materials that are resistant to wear and tear, ensuring that they last longer and offer reliable performance. The brake pads are designed to provide maximum braking power under different weather conditions, making them suitable for use in various terrains.

The Motorcycle Brake Pad Model Number CG125 is perfect for professional and amateur riders who require high-performance brake

pads for their MX Bikes. The product's quality and design make it a popular choice among motorcycle enthusiasts who value safety and performance. The brake pads are easy to maintain and replace, ensuring that the bike's braking system remains in top condition.

### **Support and Services:**

Our motorcycle brake pads are designed to provide superior stopping power and durability. We offer a wide range of brake pad options to fit various motorcycle models and riding styles.

Our technical support team is available to assist with any questions or concerns regarding the installation or performance of our brake pads. We also offer services such as brake pad replacement and inspection to ensure optimal performance and safety.

In addition, we provide resources such as online manuals and instructional videos to assist with brake pad installation and maintenance.
