Product Description

Product Description:

These brake pads are suitable for both front and rear positions, making them a versatile choice for your vehicle. They are also long-lasting, ensuring that you won't need to replace them frequently.

Each package contains 2 brake pads, making it easy to replace both pads on a single axle. Installation is also easy, so you can get back on the road quickly.

These brake pads are suitable for use with brake pads discs and brake clutch pedal pads, making them a great choice for a wide range of vehicles.

Invest in the BAJAJ Friction Brake Pads today and enjoy reliable stopping power for your vehicle.

Technical Parameters:

Package Contents	2 Brake Pads
Noise Level	Low
Weight	200-300g
Compatibility	Bajaj Motorcycles
Heat Resistance	High
Size	Standard
Thickness	5-8mm
Durability	Long-lasting
Installation	Easy
Position	Front/Rear

Applications:

The BAJAJ brake pads are designed to produce low noise levels, which makes them ideal for use in quiet residential areas. With a friction coefficient of 0.4-0.6, these brake pads provide excellent stopping power, allowing riders to come to a quick stop when necessary. They are also designed to provide a smooth and consistent braking experience, making them ideal for both daily commuting and long-distance touring.

BAJAJ brake pads come with a 1-year warranty, which gives the riders peace of mind knowing that they are investing in a quality product that they can rely on. The package contains 2 brake pads, which is enough for one motorbike. The brake pads are easy to install and can be replaced without the need for any special tools or equipment.

BAJAJ brake pads are suitable for use with brake discs, pads & calipers, making them a versatile product that can be used in a variety of different applications. These brake pads are ideal for use in all weather conditions, providing consistent and reliable braking performance, even in wet or slippery road conditions.

Whether you are a daily commuter or a weekend rider, BAJAJ brake pads are an essential component of your motorbike's braking system. These brake pads and shoes are designed to provide reliable and consistent braking performance, giving you the confidence you need to ride safely and confidently on the road.

Customization:

Select from our range of materials, including semi-metallic and ceramic, to ensure that your brake pads are of the highest quality. Our brake pads are compatible with Bajaj motorcycles and can be positioned either at the front or rear of your vehicle.

Upgrade your braking system with our Ceramic Brake Pads, Brake Clutch Pedal Pads, and Disc Brake Pads.
