

## Heat Resistant Semi Metallic Bajaj Pulsar Brake Pad For Easy Installation With Low Noise Level

Our Product Introduction

for more products please visit us on [motorbrakeparts.com](http://motorbrakeparts.com)

### Basic Information

### Product Specification

- Thickness: 5-8mm
- Warranty: 1 Year
- Durability: Long-lasting
- Installation: Easy
- Heat Resistance: High
- Material: Semi-metallic/Ceramic
- Weight: 200-300g
- Noise Level: Low
- Highlight: semi metallic bajaj pulsar brake pad,  
heat resistant bajaj pulsar brake pad,  
heat resistant bajaj pulsar brake shoe

## Product Description

### Product Description:

With a friction coefficient of 0.4-0.6, these brake pads provide excellent stopping power and help to reduce wear and tear on your brake discs. Whether you're driving in city traffic or on the open road, you can count on the BAJAJ brake pads to provide reliable and consistent braking performance.

Installation is easy with these brake pads, making them a great choice for DIY mechanics and professional technicians alike. Simply remove your old brake pads and replace them with the BAJAJ brake pads for improved performance and safety on the road.

One of the key benefits of the BAJAJ brake pads is their low noise level. Unlike some other brake pads on the market, these pads are designed to operate quietly and smoothly, providing a comfortable and enjoyable driving experience.

At just 200-300g in weight, these brake pads are lightweight and easy to handle. This makes them a great choice for vehicles of all sizes and types, including cars, trucks, and SUVs.

So if you're looking for high-quality brake pads that offer exceptional durability, low noise, and easy installation, look no further than the BAJAJ brake pads. Whether you're in need of brake pads discs, brake discs, pads & calipers, or brake shoes, these pads are sure to meet your needs and exceed your expectations. Order yours today and experience the difference for yourself!

### Technical Parameters:

Product Attribute	Description
Product Name	Front Brake Pads
Material	Semi-metallic/Ceramic
Size	Standard
Installation	Easy
Durability	Long-lasting
Thickness	5-8mm
Friction Coefficient	0.4-0.6
Heat Resistance	High
Noise Level	Low
Warranty	1 Year
Weight	200-300g
Product Type	Brake Pad Accessory Kit
Product Name	Brake Pad

### Applications:

The front brake pads of BAJAJ are an ideal choice for riders who want to maintain the highest level of safety and performance while riding. These brake pads provide excellent friction coefficient of 0.4-0.6, which ensures a smooth and controlled braking experience. The thickness of these brake pads ranges from 5-8mm, ensuring that they can withstand heavy use and last for a longer duration. BAJAJ brake pads are designed to withstand high levels of heat, making them an excellent choice for riders who frequently ride in hot and humid conditions. The heat resistance feature ensures that the brake pads do not fail due to excessive heat buildup, providing a reliable and safe braking experience.

The noise level of BAJAJ brake pads is exceptionally low, providing a smooth and quiet braking experience. The low noise level is due to the use of high-quality materials and advanced manufacturing techniques.

BAJAJ brake pads are an excellent choice for riders who use their motorcycles for a variety of applications. These brake pads are suitable for both city riding and long-distance touring, providing reliable and consistent performance in all scenarios.

Whether you are looking for front brake pads or brake shoes, BAJAJ has got you covered. These brake pads are available in a variety of sizes and specifications, ensuring that you can find the perfect fit for your motorcycle.

In summary, BAJAJ brake pads are a high-quality and reliable product that provides exceptional stopping power and safety. With their compatibility with Bajaj motorcycles, high friction coefficient, thickness, heat resistance, and low noise level, these brake pads are an excellent choice for any rider looking to enhance their motorcycle's braking performance.

### Customization:

Bajaj brake pads are a crucial component of your vehicle's braking system. To cater to your specific needs, we offer product customization services for our Brake Discs, Pads & Calipers range. Our Bajaj brake pads are known for their long-lasting durability, with a 1-year warranty to give you peace of mind. The thickness of our brake pads range from 5-8mm, ensuring reliable performance in all conditions, while their high heat resistance and low noise level make them a top choice for those who demand the best. Trust Bajaj Brake Pads Discs for superior stopping power and safety. Contact us today for personalized Brake Clutch Pedal Pads solutions.
