Basic Information

Product Specification

- Friction Coefficient: 0.4-0.6
- Heat Resistance: High
- Warranty: 1 Year
- Position: Front/Rear
- Material: Semi-metallic/Ceramic
- Installation: Easy
- Compatibility: Bajaj Motorcycles
- Weight: 200-300g
- Highlight: motorcycles bajaj brake pads,
motorcycles bajaj dominar brake pads,
front bajaj brake pads

Product Description

Product Description:

Our brake pads are made of high-quality semi-metallic/ceramic materials, which are known for their exceptional strength and heat resistance. They can withstand extreme temperatures and provide consistent stopping power, making them ideal for heavy-duty applications.

The friction coefficient of our brake pads is between 0.4-0.6, which means they offer excellent braking power without compromising safety. Additionally, our brake pads come with low noise levels, ensuring a quiet and comfortable ride.

Our brake pads are perfect for those who demand the best in terms of safety and performance. They are designed to fit perfectly onto your brake clutch pedal pads and provide reliable stopping power whenever you need it.

With a 1-year warranty, you can trust that our brake pads are built to last and will provide you with long-lasting performance. Whether you are driving on the highway or in the city, our brake pads will provide you with the peace of mind you need to enjoy your ride.

Invest in BAJAJ Friction Brake Pads today, and experience the difference for yourself. Our brake pads are the perfect choice for those who demand the best in terms of safety, performance, and reliability. Trust in BAJAJ Brake Pads to keep you safe on the road.

Technical Parameters:

Compatibility	Bajaj Motorcycles
Thickness	5-8mm
Durability	Long-lasting
Heat Resistance	High
Noise Level	Low
Warranty	1 Year
Material	Semi-metallic/Ceramic
Package Contents	2 Brake Pads
Position	Front/Rear
Friction Coefficient	0.4-0.6

Applications:

Each package of BAJAJ brake pads contains two brake pads, making it easy to replace the pads on both the front and rear brakes of your vehicle. The pads are also very easy to install, so you can quickly and easily replace your old, worn out brake pads with these high-quality replacements.

One of the key features of the BAJAJ brake pads is their high heat resistance. This means that they can withstand the high temperatures that can be generated during heavy braking, without losing their effectiveness. Whether you're riding in the city or on the highway, these brake pads will provide consistent stopping power, even in demanding conditions.

The BAJAJ brake pads are suitable for a wide range of applications and scenarios. They can be used on motorcycles, scooters, and other vehicles that use brake pads discs. Whether you're a commuter, a weekend rider, or a professional racer, these brake pads will meet your needs and exceed your expectations.

Overall, if you're looking for a high-quality, reliable, and effective brake pad for your motorcycle or other vehicle, the BAJAJ brake pads are an excellent choice. With their easy installation, high heat resistance, and excellent stopping power, these brake pads will provide the performance and reliability you need to stay safe on the road.
