Product Description

Product Description:

These brake pads are designed to be used for both front and rear brake system parts, making them a versatile choice for your motorcycle. They are made of ceramic material, which is known for its durability and resistance to wear and tear. This means that you won't have to worry about replacing your brake pads frequently, and you can enjoy a longer-lasting and more reliable brake system. Moreover, these YAMAHA brake pads are compatible with ABS, which is an essential safety feature in modern motorcycles. ABS helps prevent the wheels from locking up during sudden stops, reducing the risk of accidents and injuries. With these brake pads, you can have peace of mind knowing that your braking system is optimized for safety and performance.

Ceramic brake pads are also known for their low noise and dust levels, which means that you can enjoy a cleaner and quieter ride. They are less likely to produce annoying squeaks or grind against the brake disc, which can be distracting and potentially damaging. Installing these YAMAHA brake pads is easy, and you don't need any special tools or skills to do it. You can simply follow the instructions that come with the package, or watch online tutorials for added guidance. However, if you're not confident in your abilities, you can always seek the help of a professional mechanic or technician.

In conclusion, if you're looking for high-quality, reliable, and compatible brake pads for your motorcycle, YAMAHA's ceramic brake pads are an excellent choice. They offer superior performance, durability, and safety, and they are easy to install and maintain. They are also affordable and come with a package quantity of 2 pieces, which means that you can replace both your front and rear brake pads at the same time.

Features:

Product Name: YAMAHA motorcycle brake parts
Weight: 0.5 Lbs
Compatibility With Abs: Yes
Durability: Long-lasting
Dimensions: 4.5 X 3.5 X 0.5 Inches
Compatibility: YAMAHA Motorcycles
Category: Brake Spare Parts
Product Type: Electric Bike Parts

Technical Parameters:

Package Quantity	2 Pieces
Material	Ceramic
Installation	Easy To Install
Durability	Long-lasting
Compatibility	YAMAHA Motorcycles
Weight	0.5 Lbs
Warranty	1 Year
Type	Brake Pads
Position	Front/Rear
Color	Black

Applications:

YAMAHA motorcycle brake system parts are perfect for various occasions and scenarios. They are ideal for those who enjoy long distance touring, off-road adventures, and high-speed racing. These brake parts are also suitable for those who use their YAMAHA motorcycles for daily commuting.

The YAMAHA motorcycle brake system parts are designed to work effectively with YAMAHA motorcycles. They are engineered to meet the highest standards of quality, durability and safety. The parts are made to fit perfectly with YAMAHA motorcycles, ensuring optimal performance and reliability.

Whether you need to replace your old brake system parts or upgrade to a higher performance brake system, YAMAHA motorcycle brake system parts are the perfect solution. These parts are easy to install and can be done by yourself or by a professional mechanic.

YAMAHA motorcycle brake system parts are perfect for those who are looking for an affordable and reliable brake system upgrade.

These parts are designed to provide high braking power and are suitable for all types of riders.

In conclusion, YAMAHA motorcycle brake system parts are an essential component for the safety and performance of your YAMAHA motorcycle. These brake and clutch parts are easy to install, compatible with ABS systems and are made to fit perfectly with YAMAHA motorcycles. Upgrade your brake system today and experience the best braking performance possible.

Customization:

- Type: Brake Pads
- Package Quantity: 2 Pieces
- Weight: 0.5 Lbs

We also offer customization services for other brake-related products such as Brake Drums, Shoes & Components, Brake Spare Parts, and Electric Motorcycle Parts. Contact us for more information.

Support and Services:

Our YAMAHA motorcycle brake parts are designed and manufactured to the highest standards to ensure maximum safety and reliability for riders. If you encounter any issues with our brake parts, our technical support team is available to offer assistance and troubleshooting advice to help you resolve the problem quickly. We also offer a range of services, such as brake part installation and maintenance, to ensure that your YAMAHA motorcycle remains in top condition and performs at its best. Contact us for more information on our technical support and services for YAMAHA motorcycle brake parts.

Packing and Shipping:

Product Packaging:

The YAMAHA motorcycle brake parts are packaged in a sturdy cardboard box with the YAMAHA logo printed on it. Inside the box, the brake parts are placed in a plastic tray with individual compartments to ensure they do not get damaged during transportation. The packaging also includes an instruction manual and a warranty card.

Shipping:

The YAMAHA motorcycle brake parts will be shipped via a reputable courier service to ensure they arrive at their destination in excellent condition. The package will be secured with tape and bubble wrap to prevent any damage during transit. Customers will receive a tracking number to monitor the progress of their shipment.
