This product is a Motorcycle clutch maintenance kit, Motorcycle clutch assembly kit, and Motorcycle clutch repair kit all in one.

### Applications:

Our motorbike clutch replacement kits are designed to fit a variety of makes and models, so you can find the perfect kit for your bike. With six plates and an outer diameter of 130mm, our kits provide reliable performance and long-lasting durability. And at just 1.5kg, they won't add unnecessary weight to your bike.

But our motorcycle clutch maintenance kits aren't just for upgrading your bike's performance. They're also essential for keeping your clutch system in top condition. Over time, your clutch can become worn and damaged, leading to slipping, sticking, or other problems. Our kits make it easy to replace your old clutch and ensure that your bike is running smoothly.

Installation of our motorcycle clutch kits is a breeze thanks to the bolt-on design. Simply remove your old clutch and bolt in the new one, following the included instructions. Whether you're a seasoned mechanic or a DIY enthusiast, you'll find that our kits are easy to install and provide reliable performance for years to come.

So whether you're looking to upgrade your motorcycle's clutch system, replace a worn-out clutch, or simply perform routine maintenance, our motorcycle clutch kits are the perfect solution. With their durable construction, easy installation, and reliable performance, you can ride with confidence and enjoy your bike to the fullest.
