Product Description

Product Description:

Our brake parts fit perfectly as direct replacements for your Harley-Davidson motorcycle, ensuring compatibility and hassle-free installation. You won't have to worry about compatibility issues since our brake parts are designed specifically for Harley-Davidson motorcycles.

Our Harley-Davidson motorcycle brake parts are also equipped with a limited lifetime warranty, assuring you of our confidence in the quality of our products. With our warranty, you can enjoy peace of mind knowing that your brake system parts are protected against defects and premature failure.

Our brake parts are designed to be used as disc brakes, providing superior stopping power and better control for your motorcycle.

Whether you're driving on the highway or on the track, you can rely on our brake parts to provide the performance you need.

Our Harley-Davidson motorcycle brake system parts are a perfect addition to your motorcycle's brake and clutch parts. With our top-of-the-line brake parts, you can enjoy a smoother ride and better control, ensuring your safety on the road.

Don't settle for less when it comes to your motorcycle's brake system parts. Choose our Harley-Davidson brake parts and experience the difference in performance and reliability.

Features:

Product Name: Harley-Davidson motorcycle brake parts

Material: Steel

Size: Standard

Features: Slotted Design, Heat Treated, Corrosion Resistant

Type: Disc Brake

Fitment: Direct Replacement

Related Keywords: Brake Cylinder Parts, Kawasaki Motor Parts, Braking System Parts

Technical Parameters:

Features	Slotted Design, Heat Treated, Corrosion Resistant
Material	Steel
Compatibility	Harley-Davidson Motorcycles
Package Contents	2 Brake Rotors, 2 Sets Of Brake Pads
Type	Disc Brake
Position	Front/Rear
Quantity	1 Pair
Warranty	Limited Lifetime
Color	Black
Installation	Bolt-On

Applications:

The installation of the Harley-Davidson motorcycle brake parts is a breeze. The parts are bolt-on, which means they can be easily installed without the need for any additional modifications. This makes the installation process quick and hassle-free.

The Harley-Davidson motorcycle brake parts are sold in pairs, giving you everything you need to upgrade your bike's braking system. The disc brake type ensures that you have reliable stopping power, even in the most challenging riding conditions.

These brake parts are perfect for a wide range of applications. Whether you are a daily commuter or an avid motorcyclist, these brake parts are designed to provide the highest level of performance and safety. They are ideal for casting motorcycle parts, brake pad parts, and brake cylinder parts.

The Harley-Davidson motorcycle brake parts come with a limited lifetime warranty. This warranty ensures that you have peace of mind knowing that your investment is protected. If you encounter any issues with the parts, you can rest assured that they will be replaced or repaired at no cost to you.

In conclusion, the Harley-Davidson motorcycle brake parts are a must-have for any Harley-Davidson owner. They are designed to provide the highest level of performance and safety, and they are easy to install. Whether you are a daily commuter or an avid motorcyclist, these brake parts are perfect for a wide range of applications. So if you want to upgrade your bike's braking system, look no further than the Harley-Davidson motorcycle brake parts.

Customization:

Support and Services:

Our Harley-Davidson motorcycle brake parts are designed to provide optimal stopping power and performance for your ride. Our technical support team is available to answer any questions or concerns you may have about our products. We also offer a range of services, including installation assistance and maintenance advice, to ensure that your brakes are functioning at their best. Trust Harley-Davidson for reliable and high-quality brake parts for your motorcycle.

Packing and Shipping:

Product Packaging:

The Harley-Davidson motorcycle brake parts come in a sturdy cardboard box with the company logo printed on the top. Inside the box, the parts are securely wrapped in bubble wrap and placed in plastic bags to prevent any damage during shipping.

Shipping:

The Harley-Davidson motorcycle brake parts are shipped via UPS or FedEx and are usually delivered within 2-5 business days.

Customers will receive a tracking number via email once the package has been shipped. Shipping costs will vary depending on the customer's location and selected shipping method.

FAQ:

A: Harley-Davidson motorcycles typically use sintered metal brake pads, which offer better performance and durability compared to organic brake pads.

Q: What is the difference between DOT 4 and DOT 5 brake fluids?

A: DOT 4 brake fluid is glycol-based and is compatible with most Harley-Davidson motorcycles. DOT 5 brake fluid is silicone-based and is only compatible with certain Harley-Davidson models. Check your owner's manual or consult with a professional technician to determine which type of brake fluid is appropriate for your motorcycle.

Q: How often should I replace my brake pads?

A: It is recommended to replace your brake pads at least once a year, or every 10,000-20,000 miles depending on your riding habits and the type of brake pads you use. It is important to regularly inspect your brake pads for wear and tear and replace them if they are worn down beyond the recommended thickness.

Q: Can I use aftermarket brake parts on my Harley-Davidson motorcycle?

A: Yes, you can use aftermarket brake parts on your Harley-Davidson motorcycle. However, it is important to ensure that the parts are compatible with your specific model and meet the same quality and safety standards as the original equipment manufacturer (OEM) parts.

Q: How do I properly maintain my Harley-Davidson motorcycle brakes?

A: Proper brake maintenance includes regular inspection of your brake pads, rotors, and brake fluid levels. It is important to clean your brake components regularly and replace any worn or damaged parts. Consult with a professional technician for proper brake maintenance procedures and recommendations.
