### Applications:

Motorcycle brake shoes are a crucial component of any motorcycle as they play a vital role in ensuring the safety of the rider. The Tajiang brake shoes are made with high-quality materials that offer excellent durability and reliability. They are designed to provide maximum stopping power while minimizing wear on the brake drum. The brake shoes are suitable for a wide range of applications and scenarios.

One of the most common application occasions for brake shoes is during routine maintenance and repair work. When replacing worn-out or damaged brake shoes, it is essential to choose a reliable and high-quality product like Tajiang brake shoes. The product is compatible with a wide range of HONDA motorcycles, making it an ideal choice for mechanics and repair shops.

The Tajiang brake shoes are also suitable for use in high-performance motorcycles. These motorcycles require brake shoes that can withstand high speeds and intense braking forces. The Tajiang brake shoes are designed to provide maximum stopping power even under extreme conditions, making them an excellent choice for racing and other high-performance applications.

Another common scenario where brake shoes are needed is during off-road riding. Off-road motorcycles require brake shoes that can

withstand the harsh conditions of off-road riding, such as mud, dirt, and rocks. The Tajiang brake shoes are perfect for off-road riding as they are made with high-quality materials that offer excellent durability and reliability.

The Tajiang brake shoes are available for delivery by sea or by courier services like DHL, UPS, FedEx, EMS, etc. They are a perfect example of one-stop sourcing, providing customers with a reliable and high-quality product that meets their needs. With Tajiang brake shoes, customers can rest assured that they are getting the best possible product for their motorcycle.

## Customization:

Customize your Tajiang brake shoes to fit your specific needs with our product customization services. Our brake shoes are made in China and come with a CE certification, ensuring their quality and safety. The minimum order quantity is 10, and the lead time is usually 20 days. Installation is easy, and the brake shoes are suitable for use in motorcycles, autos, trucks, forklifts, and more. Our brake shoes come in standard sizes and are of A Class quality level. Contact us to customize your brake shoes to match your unique requirements for brake drums, shoes & components.

## Support and Services:

Our Motorcycle brake shoe product is designed to provide reliable and efficient braking performance for your motorcycle. We offer a range of technical support and services to ensure that you get the most out of your brake shoe product:

- Technical assistance with product installation and maintenance
- Troubleshooting and diagnosis of brake-related issues
- Comprehensive product testing and analysis
- Customized product development and engineering
- Ongoing product training and education for customers and dealers

Our team of experienced technicians and engineers are dedicated to providing superior customer service and support for our brake shoe product. Contact us today to learn more about our technical support and services.

## Packing and Shipping:

Product Packaging:

Each motorcycle brake shoe is individually packed in a plastic bag.

10 brake shoes are then packed in a cardboard box.

The box is sealed with tape to prevent any damage during transportation.

Shipping:

Shipping will be done through reliable courier services.

Delivery time may vary depending on the location of the customer.

Customers will receive a tracking number to track their shipment.

Shipping charges will be based on the weight and destination of the package.
