Applications:

Our brake shoes are designed for use in motorcycles, autos, trucks, forklifts and other similar vehicles. They are made from high-quality materials and are manufactured to meet the standards of A-Class quality. This ensures that our brake shoes are durable, long-lasting and provide consistent performance even in the toughest of conditions.

Our brake shoes are available as individual components or as part of a brake shoe assembly. In addition, we also offer brake shoes and linings that are designed to work together for optimal performance. This makes it easy for you to find the right brake shoe solution for your specific needs.

Our brake shoes are suitable for use in a variety of car models, specifically motorcycles. The brake shoes come in a classic black color that is both stylish and functional, ensuring that they will look great on your vehicle while also providing the necessary stopping power. With our OEM services, we can provide customized solutions to meet your specific requirements. Whether you need a specific size, shape or material, we have the expertise to create the perfect brake shoe solution for your needs.

Our minimum order quantity is only 10 units, making it easy for you to order exactly what you need. So why wait? Contact us today to learn more about our brake shoe solutions and how we can help improve the performance of your vehicle.
