Brake Plate	BMW Brake Calipers
Brake Plate	For use with front or rear brakes

Applications:

The package contents for the BMW motorcycle brake parts include one brake rotor and one set of brake pads. These parts are made of steel, which provides durability and longevity. The installation process is bolt-on, which allows for easy and quick installation without the need for specialized tools. These brake parts are compatible with BMW motorcycles, making them the perfect choice for those who own BMW motorcycles.

The BMW brake calipers are an essential part of the braking system, and they work to slow down or stop the motorcycle. The brake pads work with the brake calipers to create the necessary friction to stop the motorcycle. These brake parts are designed to fit standard size BMW motorcycles, making them a versatile choice for a range of BMW models.

The BMW motorcycle brake parts are suitable for a variety of application occasions and scenarios. Whether you are a professional motorcycle mechanic or an individual who enjoys DIY repairs, these brake parts are the perfect choice. They are ideal for routine maintenance and repairs, as well as for upgrading the performance of your BMW motorcycle.

Overall, the BMW motorcycle brake parts are an excellent choice for anyone looking to maintain or upgrade the braking system of their BMW motorcycle. With their certification, durability, and compatibility with BMW motorcycles, these brake parts are a reliable and safe option. Whether you need to replace worn-out brake parts or want to upgrade the performance of your motorcycle, these BMW brake calipers and brake pad parts are the perfect choice.

Customization:

Customize your BMW motorcycle brake parts with our product customization services. Our brake parts are CE certified and come with a 1-year warranty. They are a direct replacement and fit perfectly with BMW brake calipers. The package contents include 1 brake rotor and 1 set of brake pads, making installation easy with bolt-on installation. The minimum order quantity for our high-quality brake parts is 100.

Our customization services ensure that the brake parts fit your BMW motorcycle perfectly. Whether you need a different size or want to install BMW brake calipers, we can customize the product to meet your needs. We also offer customization options for Kawasaki motor parts.

Support and Services:

Our BMW motorcycle brake parts are designed to provide reliable and consistent performance. We offer a range of technical support and services to ensure that our customers have the best possible experience with our products.

Our team of experts is available to answer any questions you may have about our brake parts, including installation and maintenance. We can provide guidance on selecting the right parts for your specific motorcycle model and riding style.

In addition, we offer repair and replacement services for our brake parts if they become damaged or worn over time. Our technicians are trained to diagnose and fix any issues with our products to ensure that they perform at their best.

We stand behind our BMW motorcycle brake parts with a warranty to provide added peace of mind to our customers. If you experience any issues with our products, please do not hesitate to contact us for assistance.

Packing and Shipping:

Product Packaging:

The BMW motorcycle brake parts product will be packaged securely in a sturdy cardboard box to ensure that the parts arrive at their destination undamaged. The parts will be wrapped in bubble wrap to provide additional protection during transit.

Shipping:

Our standard shipping method for the BMW motorcycle brake parts product is through UPS. The estimated delivery time for domestic orders is 2-5 business days, and for international orders, it is 5-10 business days. Customers will receive a tracking number via email once their order has been shipped.
