Product Description

Product Description:

These high-quality brake parts are designed to meet and exceed OEM standards, ensuring superior performance and reliability. With their Disc Brake Type, they provide excellent stopping power and unparalleled safety, giving you the confidence you need on the road. The BMW motorcycle brake parts include Brake Plate and Brake Pad Parts, ensuring that you have everything you need for a complete and hassle-free installation. The Brake Plate is a critical component of the brake system that provides support for the Brake Pad and helps to dissipate heat, preventing brake fade and ensuring consistent performance. The Brake Pad Parts are equally important, providing the necessary friction to stop your motorcycle quickly and effectively. With a weight of 1.5 Lbs, these BMW motorcycle brake parts are lightweight and easy to handle, making installation a breeze. The Bolt-On installation process means that you can have your new brakes installed in no time, without the need for any special tools or expertise. Investing in high-quality brake parts is essential for your safety and the safety of others on the road. With the BMW motorcycle brake parts, you can be sure that you are getting a product that is built to last and designed to perform. So why wait? Upgrade your BMW motorcycle today with these top-of-the-line brake parts!

Features:

Product Name: BMW motorcycle brake parts

Compatibility: BMW Motorcycles

Package Contents:

1 Brake Rotor
