Technical Parameters:

Material:	Copper
Fitment:	Front And Rear Brakes
Size:	Standard
Package:	Set Of 2
Type:	Brake Pads
Warranty:	1 Year
Durability:	High
Compatibility:	Kawasaki Motorcycles
Performance:	Excellent
Oe Number:	12345-6789

Applications:

The brake pads are designed to fit Kawasaki motorcycles and are manufactured with OE number 12345-6789. This ensures that the brake pads will provide a perfect fit and function effectively as a replacement for the original brake pads. The high durability of the brake pads ensures that they can withstand daily use and provide long-lasting performance without having to be replaced frequently.

The Kawasaki motorcycle brake pads are suitable for a wide range of application occasions and scenarios. They can be used in various terrains, including city roads, highways, and off-road trails. The brake pads are perfect for use in situations where the motorcyclist needs to stop suddenly, such as in heavy traffic or emergency stops. They are also ideal for use in electric motorcycles as well as regular motorcycles.

Motorcycle repair shops can benefit from the purchase of Kawasaki brake pads due to their high compatibility and durability. The product is an excellent choice for electric motorcycle parts as well as regular motorcycle parts. The high-quality material used in the manufacturing process ensures that the brake pads will last, making them a cost-effective investment for both motorcycle riders and repair shops.

Customization:

Our Kawasaki Brake Pads are a top-quality product that comes with CE certification and a 1-year warranty. These Brake Pad Parts are designed to provide easy installation and are sold in a Set Of 2, suitable for both front and rear brakes. This Brake Spare Parts product is an essential component of the braking system for your Kawasaki motorcycle and guarantees a smooth and safe ride.

Support and Services:

Kawasaki motorcycle brake pads are designed to provide reliable and consistent stopping power for your motorcycle. Made from high-

quality materials, these brake pads are engineered to withstand the rigors of heavy use and provide excellent performance in all riding conditions.

Our technical support team is available to answer any questions you may have about our brake pads and can assist you with installation and maintenance. We also offer a range of services to help keep your motorcycle running smoothly, including brake pad replacement and inspection.

At Kawasaki, we are dedicated to providing our customers with the highest levels of quality and service. That's why we stand behind our brake pads with a comprehensive warranty, giving you peace of mind and confidence in your purchase.

Packing and Shipping:

Product Packaging:

The Kawasaki motorcycle brake pads are carefully packed in a sturdy box that ensures the product is protected from damage during transportation. The packaging includes the necessary information about the product, such as the model number, quantity, and installation instructions.

Shipping:

Our shipping process is efficient and reliable. We work with trusted carriers to ensure that your Kawasaki motorcycle brake pads are delivered to your doorstep in a timely manner. We offer both standard and expedited shipping options, depending on your needs. Once your order is processed, you will receive a tracking number that you can use to monitor the delivery status of your package.

FAQ:

Q: What is the brand name of these brake pads?

A: The brand name of these brake pads is Kawasaki.

Q: Are these brake pads certified?

A: Yes, these brake pads are CE certified.

Q: What is the minimum order quantity for these brake pads?

A: The minimum order quantity for these brake pads is 100.

Q: Are these brake pads compatible with all Kawasaki motorcycle models?

A: These brake pads are compatible with most Kawasaki motorcycle models, but it's recommended to check your motorcycle's manual or contact a Kawasaki dealer to confirm compatibility.

Q: How often do these brake pads need to be replaced?

A: The lifespan of brake pads varies depending on factors such as riding style and road conditions. It's recommended to check your brake pads regularly and replace them when they are worn down to the minimum thickness indicated in your motorcycle's manual.
