Product Description

Product Description:

Our brake parts package contains 1 brake rotor and 1 set of brake pads, which will ensure that your BMW motorcycle has everything it needs for a smooth and safe ride. The disc brake type is perfect for those looking for a high-quality and reliable brake system that will last for years to come.

Our BMW motorcycle brake parts product is compatible with a wide range of BMW Motorcycles, ensuring that you can find the perfect fit for your specific model. With our brake parts, you will experience the ultimate in braking power, ensuring that you can stop quickly and safely in any situation.

Our brake rotor is made from high-quality materials, ensuring that it is durable and long-lasting. The brake plate is designed to provide maximum stopping power, while also ensuring that your brake system is reliable and easy to use. With our BMW brake calipers, you can be confident that your BMW motorcycle will have all the stopping power it needs, no matter where you ride.

Our brake pads are specifically designed to work with our brake rotor and BMW brake calipers, ensuring that you get the best possible performance from your brake system. With our brake pads, you can be confident that your BMW motorcycle will stop quickly and safely, even in the toughest conditions.

In summary, our BMW motorcycle brake parts product is the perfect choice for anyone looking for a high-quality and reliable brake system for their BMW motorcycle. With our sleek and elegant black color, disc brake type, and compatibility with a wide range of BMW Motorcycles, you can be confident that you are getting the best possible brake system for your bike. So why wait? Order your BMW motorcycle brake parts today and experience the ultimate in braking power!

Technical Parameters:

Type	Disc Brake
Warranty	1 Year
Fitment	Direct Replacement
Installation	Bolt-On
Position	Front/Rear
Part Number	34212312345
Size	Standard
Material	Steel
Weight	1.5 Lbs
Country Of Origin	Germany

Applications:

The BMW motorcycle brake parts are suitable for a variety of product application occasions and scenarios. One such occasion is when replacing worn-out brake parts on a BMW motorcycle. These brake parts are specifically designed to fit BMW motorcycles and ensure that the motorcycle stops quickly and smoothly, providing a safe and comfortable ride. They are also suitable for use in repairing and maintaining other types of motorcycles, including Kawasaki Motor Parts.

Another scenario where the BMW motorcycle brake parts can be used is in the construction of custom motorcycles. These brake parts are perfect for those who are building their own motorcycles and want to ensure that the brake system is of the highest quality. The lightweight design of the brake parts makes them ideal for use in custom motorcycles, as they do not add unnecessary weight to the motorcycle.

Finally, the BMW motorcycle brake parts are also suitable for use in motorcycle racing. Whether you are a professional racer or a hobbyist, these brake parts are designed to provide the best possible braking performance. They are durable, reliable, and provide excellent stopping power, ensuring that you can brake quickly and safely on the track.

Customization:

Our BMW motorcycle brake parts are customizable to fit your specific needs. We offer product certification for CE compliance and our minimum order quantity is 100. All of our brake parts are manufactured in Germany and we offer direct replacement fitment for easy installation. Our brake parts are made of high-quality steel and are of the disc brake type, ensuring reliable stopping power. Installation is made easy with our bolt-on design.

Looking for Kawasaki motor parts? Our brake pad parts are a perfect fit for your motorcycle. Contact us today to learn more about our product customization services.

Support and Services:

Our BMW motorcycle brake parts are designed to meet the highest standards of quality and performance. We offer a range of technical support and services to ensure that your brakes are always operating at their best.

Our team of expert technicians can provide installation support, troubleshooting assistance, and repair services to help you get the most out of your BMW motorcycle brakes. Additionally, we offer comprehensive training materials and resources to help you maintain and service your brakes over time.

Whether you need help with installation, maintenance, or repair, our team is here to provide the support and expertise you need to keep your BMW motorcycle brakes in top condition.

Packing and Shipping:

Product Packaging:

The BMW motorcycle brake parts product will be packaged in a sturdy cardboard box to ensure safe transportation. The parts will be placed inside plastic bags and securely taped to prevent any damage during transit. The packaging will also include a packing slip with the order details and a short user manual to assist in installation.

Shipping:

The BMW motorcycle brake parts product will be shipped via a reputable courier service. The shipping options will be displayed during checkout and the customer can choose their preferred method. Standard shipping will take approximately 5-7 business days for delivery, while expedited shipping will take 2-3 business days. The customer will receive a tracking number via email once the order has been shipped.

FAQ:

Q: Is this BMW motorcycle brake part certified?

A: Yes, it is certified with CE certification.

Q: How many BMW motorcycle brake parts do I need to purchase?

A: The minimum order quantity for this product is 100.

Q: What is the material of this BMW motorcycle brake part?

A: The material used for this brake part is high-quality steel.

Q: Can this BMW motorcycle brake part fit all BMW motorcycle models?

A: This brake part is specifically designed for certain BMW motorcycle models. Please check the compatibility before purchasing.

Q: Is installation of this BMW motorcycle brake part easy?

A: It is recommended to have a professional mechanic install the brake part for optimal safety and performance.
