Product Description

Product Description:

Designed specifically for Kawasaki motorcycles, these brake pads are the perfect replacement for your worn-out or damaged braking system parts. Made with top-grade materials and engineered for optimal performance, these brake pads offer excellent stopping power and superior durability, ensuring a safe and reliable ride every time.

In addition to their exceptional performance, these brake pads are also easy to install. Each package includes a set of two brake pads, so you can replace both the front and rear brakes of your motorcycle with ease. The black color of these brake pads also adds a sleek and stylish touch to your bike's overall appearance.

When it comes to quality and reliability, you can trust in these Kawasaki motorcycle brake pads. With an OE number of 12345-6789 and a one-year warranty, you can rest assured that you're getting a top-of-the-line product that will last you for years to come.

Package	Set Of 2

These brake pads are excellent electric motorcycle parts for Kawasaki motorcycles. They are black brake pad parts made of copper and are standard size. Their OE number is 12345-6789 and they come in a set of 2. They are compatible with both front and rear brakes and are easy to install. These brake spare parts are a great addition to your Kawasaki motorcycle.

Applications:

These brake pads are suitable for both front and rear brakes, making them a versatile option for Kawasaki motorcycles. The black color of these brake pads is a perfect fit for the overall look of the motorcycle.

As electric motorcycles become more popular, the demand for electric motorcycle parts has increased. Kawasaki motorcycle brake pads are an essential part of the braking system for electric motorcycles.

Brake pad parts are an important component of the braking system and should be replaced regularly to ensure optimal performance.

These Kawasaki motorcycle brake pads are available in a set of 2, making it easy to replace both the front and rear brake pads at once.

The minimum order quantity for these brake pads is 100, making it easy for retailers to stock up and ensure they have enough inventory to meet the demand of customers.

These brake pads are compatible with Kawasaki motorcycles, making them an ideal choice for Kawasaki motorcycle owners. They are designed to fit perfectly with the braking system of Kawasaki motorcycles, ensuring optimal performance.

Overall, Kawasaki motorcycle brake pads are an excellent choice for anyone in need of braking system parts for their Kawasaki motorcycle. They are durable, versatile, and easy to replace, making them a great investment for anyone looking to maintain their motorcycle's performance and safety.
