Product Description

Product Description:

Our brake pad parts are designed to last, ensuring that you get the most out of your brakes. With their high durability, you can count on these brake pads to handle even the toughest riding conditions. And with their black color, they'll blend seamlessly with the rest of your bike's components.

When it comes to fitment, our brake pad parts are specifically designed for Kawasaki motorcycles. Whether you have a Ninja, a Vulcan, or any other model, you can be confident that our brake pads will be a perfect fit. And with their compatibility with both front and rear brakes, you can easily replace all of your brake pads with ease.

So why choose our brake pad parts? For starters, they're made from high-quality copper material that's designed to last. They're also compatible with a wide range of Kawasaki motorcycles, making them a versatile choice for any rider. And with their black color, they'll blend seamlessly with your bike's existing components.

Whether you're a seasoned rider or just getting started, reliable brakes are essential for safe and enjoyable riding. So why wait? Order your set of brake spare parts today and experience the difference for yourself!

We specialize in providing custom braking system parts and brake spare parts for Kawasaki motorcycles. Our products are made from high-quality copper material and are CE certified for excellent performance. Whether you need replacement parts or want to upgrade your Kawasaki hydraulic motor parts, we can meet your needs. Contact us today to discuss your requirements.

Support and Services:

Our Kawasaki motorcycle brake pads feature advanced technology and materials to ensure reliable and consistent performance. Our brake pads are designed to provide superior stopping power, reduced brake fade, and longer pad life. All of our brake pads are rigorously tested to meet or exceed OEM specifications for fit, form, and function.

We offer an extensive range of brake pad options to suit your riding style and needs, including sintered metal, organic, and ceramic compounds. Our knowledgeable technical support team is available to answer any questions you may have and help you select the best brake pads for your Kawasaki motorcycle.

In addition to our high-quality brake pads, we also offer a range of services to support our customers, including installation instructions, technical support, and warranty coverage. Our commitment to customer satisfaction means you can trust us to provide the best products and services for your Kawasaki motorcycle brake system.

Packing and Shipping:

Product Packaging:

The Kawasaki motorcycle brake pads come in a sturdy cardboard box with the product name and image printed on the front. Inside the box, the brake pads are securely packed in a plastic bag to prevent any damage during transportation.

Shipping:

We offer free shipping for the Kawasaki motorcycle brake pads product within the United States. We use reliable shipping carriers to ensure that the product is delivered to our customers in a timely and safe manner. Once the order is received, it will be processed within 24 hours and shipped out within 2-3 business days. Customers will receive a tracking number via email to track their package.

FAQ:

Q: What is the brand name of these brake pads?

A: These brake pads are manufactured by Kawasaki.

Q: Are these brake pads certified?

A: Yes, these brake pads are certified with the CE mark.

Q: What is the minimum order quantity for these brake pads?

A: The minimum order quantity for these brake pads is 100.

Q: Are these brake pads compatible with all Kawasaki motorcycle models?

A: These brake pads are designed to be compatible with a variety of Kawasaki motorcycle models. However, it is recommended to check the compatibility with your specific model before purchasing.

Q: How long do these brake pads typically last?

A: The lifespan of these brake pads will depend on a variety of factors, including the type of riding and maintenance practices. It is recommended to regularly inspect and replace brake pads as needed for optimal performance and safety.
