Product Description

Product Description:

Our brake pads are made using high-quality materials, including a copper-based backplate, which provides excellent heat dissipation and ensures a longer lifespan for your brake pads. The copper-based backplate also helps reduce noise and vibration, providing a smoother and more comfortable ride.

Our brake pads come in a package containing 1 pair of brake pads, making it easy to replace your old brake pads and get back on the road quickly. The package contents are designed to be user-friendly and easy to install, even for those who are not mechanically inclined. Our brake pads are specifically designed for use on MX bikes and are compatible with OEM replacement parts. This means that you can replace your old brake pads without having to worry about compatibility issues or the need for additional modifications.

Whether you're a professional rider or just starting out, our brake pads are the perfect addition to your MX bike. With their strong stopping power, copper-based backplate, and easy installation, you can enjoy a safer and more comfortable ride with confidence.

Features:

Product Name: Motorcycle brake pad

Package Contents: 1 Pair Of Brake Pads

Surface: Copper Based

Quality: OEM Standard

Product Type: Motorcycle Parts & Accessories

Friction Coefficient: High Friction Coefficient

This product is a set of **brake pad parts** that includes 1 pair of **brake plates**. The **friction brake pads** are made with a copper-based surface and are of OEM standard quality, making them ideal for use as replacement parts for your motorcycle. They have a high friction coefficient that ensures reliable stopping power.

Applications:

Our Motorcycle Brake Pad is an OEM replacement and is compatible with your existing brake plate. This product is made of Ceramic Brake Pads, providing durability and longevity. It is designed to provide a low noise level, ensuring your ride is smooth and quiet.

This product is suitable for a variety of occasions and scenarios. If you are a motorcycle enthusiast, this product is perfect for you. It is designed for those who love to ride in all types of conditions, whether it's on the highway or off-road. Our Motorcycle Brake Pads are perfect for those who need a reliable and safe brake pad that will perform well in all situations.

If you are a motorcycle mechanic, our Motorcycle Brake Pads are perfect for you. With its OEM replacement feature, it is easy to install and will save you time and effort. The Ceramic Brake Pads will also ensure that the brake pad lasts longer, reducing the need for frequent brake pad replacements.

If you are a motorcycle dealership, our Motorcycle Brake Pads are perfect for you. With its CE certification, you can be assured that our product is safe and reliable. It is also a great way to attract new customers who are looking for a high-quality brake pad that will ensure their safety while riding.

In conclusion, our Motorcycle Brake Pads are a high-quality product that is perfect for a variety of occasions and scenarios. With its durability, longevity, low noise level, and compatibility with your existing brake plate, it is the perfect choice for motorcycle enthusiasts, mechanics, and dealerships. So why wait? Order your Motorcycle Brake Pads today!
