Product Description:

When it comes to motorcycle parts and accessories, the front brake pads are one of the most important components. Without them, stopping your bike safely and quickly would be nearly impossible. The high friction coefficient of these brake pads ensures that you can brake quickly and effectively, even in emergency situations.

The copper-based back plate adds to the overall durability of the product. This material is known for its strength and resistance to wear and tear, making it ideal for use in the construction of brake pads. With these brake pads installed on your bike, you can rest assured that they will last for a long time.

In addition to their performance and durability, the front brake pads for the Pulsar 180/135 are also easy to install. This makes them a popular choice among DIY motorcycle enthusiasts who prefer to work on their bikes themselves. With just a few simple tools, you can have these brake pads installed and ready to go in no time.

If you're looking for a high-quality product that will improve the safety and performance of your motorcycle, look no further than these front brake pads. They are an essential component for any rider who wants to ensure that their bike is safe and reliable on the road. So why wait? Order your set of front brake pads today and experience the difference for yourself!

Features:

Product Name: Motorcycle brake pad
Stopping Power: Strong
Product Type: Motorcycle Parts & Accessories
Custom Service: OK
Package Contents: 1 Pair Of Brake Pads
Noise Level: Low Noise
Material: Ceramic Brake Pads
Type: Friction Brake Pads
Design: Brake Plate

Applications:

These Brake Pads are perfect for motorcycle enthusiasts who love to ride in all kinds of weather conditions. They are effective in wet and dry conditions and provide excellent stopping power.

The copper-based Brake Plate ensures that the Brake Pad maintains its shape even in extreme temperatures. This makes them perfect for long-distance riding or for use in mountainous regions where the roads are steep and winding.

Our Friction Brake Pads are ideal for those who demand the best performance from their motorcycles. They are designed to provide maximum stopping power and are suitable for high-speed riding.

These Brake Pads are easy to install and come with a minimum order quantity of 10. They are a great investment for motorcycle owners who want to ensure the safety of themselves and their passengers.

Whether you are a professional rider or a casual enthusiast, our Friction Brake Pads are the perfect choice for your motorcycle. So, if you are looking for a reliable and high-performance Brake Pad, look no further than our Friction Brake Pads!

Customization:

Customize your Front Brake Pads with our product customization services. Our Brake Pad Parts are made in China and come with CE certification. The minimum order quantity is 10. Our Brake Pads are known for their Long Lasting Durability and have a Copper Based Back Plate. We offer Custom Service and our Quality is OEM Standard. Our Brake Pads are also suitable for OEM Replacement.

Support and Services:

Our motorcycle brake pads are designed to provide superior stopping power and durability. Made from high-quality materials, they are engineered to withstand the extreme temperatures and pressures of motorcycle braking systems.

We offer comprehensive technical support and services for our brake pads, including:

- Installation guidance
- Troubleshooting assistance
- Performance optimization tips
- Warranty information

Our team of experts is dedicated to ensuring that our customers have the best possible experience with our products. If you have any questions or concerns, please do not hesitate to contact us.

Packing and Shipping:

The motorcycle brake pad product comes in a sturdy cardboard box with the product name and brand printed on it. Inside the box, the brake pads are securely packaged in a plastic sleeve to prevent any damage during shipping.

Shipping:

We offer free shipping on all orders of our motorcycle brake pads within the continental United States. Orders are processed within 1-2 business days and shipped via standard shipping. Estimated delivery time is 3-5 business days. For international orders, shipping rates and delivery times may vary depending on the destination.
