Product Description

Product Description:

Our brake pads are made from premium materials and are engineered to withstand the toughest conditions. Whether you're riding on the track or on the street, our brake pads will deliver reliable stopping power every time. When it comes to motorcycle parts and accessories, our brake pads are a must-have for any MX bike owner. With their long-lasting durability and exceptional quality, our brake pads are the perfect addition to your bike's braking system. Each package contains one pair of brake pads, making it easy to replace your old, worn-out brake pads with our high-quality brake pads. And with our custom service, you can rest assured that you're getting the perfect fit for your bike. So if you're in the market for a new set of brake pads, look no further than our top-of-the-line brake pads. With their superior quality and long-lasting durability, our brake pads are the perfect choice for any MX bike owner.

Features:

Product Name: Motorcycle brake pad
Product Type: Motorcycle Parts & Accessories
Application For: MX Bike
Model: Pulsar 180/135
Suit For: Honda CRF R X 450 250
Surface: Copper Based
Friction Brake Pads
Brake Plate
Brake Pad

Applications:

Our Motorcycle Brake Pads are designed to suit Honda CRF R X 450 250, making them an ideal fit for these specific models. With a minimum order quantity of 10, these brake pads are perfect for motorcycle repair shops, dealerships, and individuals. Our Friction Brake Pads are an OEM replacement, meaning they are a perfect match for your motorcycle's original brake pads. These brake pads are made with a copper-based back plate, ensuring excellent heat dissipation and reduced brake fade. One of the key features of our Friction Brake Pads is their low noise level. This makes them an excellent choice for riders who want a quieter ride without compromising on performance. Our Friction Brake Pads are also incredibly durable, boasting a long-lasting design that can withstand even the most demanding riding conditions. These Motorcycle Brake Pads are suitable for a wide range of applications and scenarios, from casual weekend rides to endurance racing. Whether you're a professional rider or a casual enthusiast, our Friction Brake Pads are an excellent choice for your motorcycle's braking system. In summary, our Friction Brake Pads are an ideal choice for anyone looking for reliable and high-quality brake pads. With their CE certification, OEM replacement compatibility, copper-based back plate, low noise level, and long-lasting durability, these brake pads are an excellent investment for any motorcycle owner.

...

Brake Plate

Our Friction Brake Pads come with a copper-based back plate, which provides excellent heat dissipation and reduced brake fade. This ensures that your motorcycle's braking system remains reliable and efficient, even during demanding riding conditions. The Brake Plate is an essential component of any motorcycle's braking system, and our Friction Brake Pads provide superior quality and reliability. With their long-lasting design and low noise level, our brake pads are an excellent choice for any rider looking for top-notch performance and safety.
