Installation	Bolt-on
Position	Front
Fitment	Direct Replacement
Material	Aluminum

Applications:

The DUKATI motorcycle brake parts are bolt-on parts, which means they are easy to install and require no special tools. These parts are made of aluminum, which makes them lightweight and durable. They are designed for use in the front position of the motorcycle and are of the disc brake type. They are also compatible with a wide range of motorcycles, making them a universal fit.

The DUKATI motorcycle brake parts are versatile in their application. They are suitable for use in various occasions and scenarios, including:

Motorcycle repair workshops: These brake parts are perfect for motorcycle repair workshops that need to replace worn out or damaged brake parts. They are easy to install and come with a universal fit, making them suitable for a wide range of motorcycles.

Electric bike spare parts: These brake parts are also suitable for use in electric bikes. Their lightweight design makes them ideal for use in electric bikes, which require lightweight parts to conserve battery power.

Electric motorcycle parts: These brake parts are also compatible with electric motorcycles. Electric motorcycles require high-quality parts to ensure their safety and reliability, and the DUKATI motorcycle brake parts are up to the task.

In conclusion, the DUKATI motorcycle brake parts are high-quality, CE-certified parts that are easy to install and compatible with a wide range of motorcycles. Their universal fit makes them suitable for use in various occasions and scenarios, including motorcycle repair workshops, electric bike spare parts, and electric motorcycle parts.
