Product Description

Product Description:

Our brake pads are made with high-quality materials that meet OEM standards, ensuring that they provide reliable and consistent performance. They are also an excellent replacement for OEM brake pads and are designed to fit perfectly onto your motorcycle without any modifications.

The surface of our brake pads is made using copper-based technology, which ensures that they provide excellent stopping power while also being resistant to wear and tear. This surface is also designed to be gentle on your brake rotor, preventing any unnecessary damage from occurring.

Our brake pads are highly durable and long-lasting, which means that you can enjoy a safer and more reliable ride for longer periods.

With our brake pads, you can rest assured that you are getting the best quality for your money.

Our brake pads are specifically designed for the Pulsar 180/135 models, and they are a great choice for riders who want to upgrade their braking system. These brake pads are also suitable for those who want to replace their OEM brake pads with a high-quality alternative.

With our brake pads, you can enjoy the benefits of ceramic brake pads, which offer excellent performance and reliability. Whether you are a seasoned rider or a beginner, our brake pads are the perfect choice for you.

So why wait? Order your set of high-quality brake pads today and enjoy a safer and more reliable ride on your Honda CRF R X 450 250 motorcycle. Our brake pads are an excellent choice for anyone looking for a high-quality, long-lasting, and reliable solution for their motorcycle's braking system.

Applications:

These brake pads are an essential part of your bike's braking system. They provide the necessary friction to stop your bike quickly and safely. Our brake pads are designed to withstand high temperatures and heavy use, making them ideal for MX biking. With a minimum order quantity of just 10, you can easily stock up on brake pad parts for your bike.

Our Motorcycle Brake Pad product is also customizable, meaning you can have them tailored to your specific needs. Whether you need a different size or material, we can work with you to create the perfect brake pad for your MX bike. We also offer OEM replacement, so you can be sure that your new brake pads will fit perfectly with your bike's braking system.

The package contents include one pair of brake pads, which is enough for one bike. These brake pads are suitable for a variety of occasions and scenarios. Whether you are racing, touring, or just enjoying a leisurely ride, our brake pads will provide reliable stopping power when you need it most.

Our Motorcycle Brake Pad product is a must-have for any MX bike enthusiast. With its high-quality construction, customizable options, and OEM replacement capabilities, you can be sure that you are getting the best possible product for your bike. Order now and experience the difference our brake pads can make!
