Product Description

Product Description:

Our Friction Brake Pads are made of high-quality ceramic materials that provide superior stopping power and longer lifespan. They are designed to meet or exceed OEM standards, ensuring they will fit perfectly and perform consistently.

These Brake Pad Parts are easy to install and require no modification to your MX Bike. They have been engineered to withstand high temperatures and extreme conditions, making them ideal for off-road and racing applications.

Not only do our Friction Brake Pads perform exceptionally well, but they are also low noise. This means you won't have to worry about any annoying squeaks or screeches when braking.

Invest in our Friction Brake Pads and experience the difference in your MX Bike's braking performance. Don't settle for subpar brake pads that could compromise your safety on the road. Choose our Ceramic Brake Pads for the ultimate stopping power.

Our Friction Brake Pads are part of our extensive collection of Motorcycle Parts & Accessories. We are committed to providing our customers with the highest quality products at an affordable price.
