Includes Brake Drums, Shoes & Components, Brake System Parts, and Brake And Clutch Parts

### Technical Parameters:

Color	Black
Weight	0.5 Lbs
Dimensions	4.5 X 3.5 X 0.5 Inches
Material	Ceramic
Performance	High Braking Power
Type	Brake Pads
Installation	Easy To Install
Position	Front/Rear
Durability	Long-lasting
Compatibility	YAMAHA Motorcycles

### Applications:

These brake parts are suitable for a wide range of electric motorcycle parts, making them an ideal choice for motorcycle enthusiasts who prefer electric motorcycles. The YAMAHA motorcycle brake parts are also compatible with various brake spare parts, including brake drums, shoes, and components. This makes it easier for motorcycle owners to find the required replacement parts for their motorcycle brakes, ensuring that they have a hassle-free riding experience.

The YAMAHA motorcycle brake parts are designed and manufactured to meet the highest quality standards. These brake parts come with a one-year warranty, which gives the customers peace of mind, knowing that they are investing in a product that is built to last. The YAMAHA motorcycle brake parts are also easy to install, and they offer superior performance, making them an excellent choice for motorcycle riders who demand the best.

The YAMAHA motorcycle brake parts are suitable for various application occasions and scenarios, including sports riding, touring, commuting, and racing. These brake parts are ideal for motorcycle riders who enjoy pushing their motorcycle to the limit, as they offer excellent stopping power, even in high-speed situations. The YAMAHA motorcycle brake parts are also suitable for daily commuting, as they provide reliable and consistent braking, ensuring that the rider can stop the motorcycle safely, even in heavy traffic.

### Customization:

### Support and Services:

YAMAHA offers technical support and services for their motorcycle brake parts to ensure optimal performance and safety. They provide detailed product information, installation guides, and troubleshooting tips to help customers properly maintain their brake systems.

YAMAHA also offers regular maintenance and repair services to ensure the longevity of their brake parts. Customers can contact YAMAHA's support team for any questions or concerns regarding their brake parts.

Brake rotor

Brake caliper

Brake fluid (100 ml)

Shipping Information:

Ships from: Warehouse

Shipping weight: 5 lbs

Shipping dimensions: 12" x 8" x 6"

Shipping method: Standard Ground

## FAQ:

A: YAMAHA motorcycle brake pads are made of high-quality ceramic, Kevlar, and metallic materials for maximum stopping power and durability.

Q: What is the recommended lifespan of YAMAHA motorcycle brake pads?

A: The lifespan of YAMAHA motorcycle brake pads varies depending on usage and riding conditions. However, it is recommended that they be replaced every 10,000 miles or as soon as they show signs of wear.

Q: Are YAMAHA motorcycle brake parts compatible with other brands of motorcycles?

A: YAMAHA motorcycle brake parts are specifically designed and engineered to fit YAMAHA motorcycles. While they may be compatible with other brands, it is recommended to use genuine YAMAHA parts for optimal performance and safety.

Q: How do I know when it's time to replace my YAMAHA motorcycle brake rotors?

A: It is recommended to replace YAMAHA motorcycle brake rotors if they are worn down to the minimum thickness specified by the manufacturer, or if they show signs of warping or cracking. Additionally, if you experience pulsating or vibrating brakes, it may indicate that the rotors need to be replaced.

Q: Can I install YAMAHA motorcycle brake parts myself, or do I need to take it to a professional mechanic?

A: While it is possible to install YAMAHA motorcycle brake parts yourself, it is recommended to have a professional mechanic perform the installation to ensure proper fitment and safety.
