Keywords: Kawasaki Motor Parts, Kawasaki Spare Parts, Brake Spare Parts

Technical Parameters:

Applications:

The Suzuki motorcycle brake parts product is recommended for a wide range of product application occasions and scenarios. For example, if you are looking to upgrade your motorcycle's braking system for better performance, this product is an ideal choice. It provides excellent stopping power and ensures a smooth and safe ride. Additionally, if you are looking for electric bike parts, these brake parts can be used as a replacement for electric bikes that use disc brakes.

Furthermore, these brake parts can also be used for Kawasaki hydraulic parts. The high compatibility of this product with Suzuki motorcycles makes it an ideal choice for those who want to upgrade their Kawasaki bikes' braking system. The brake system parts are manufactured with high-quality materials, ensuring long-lasting durability and reliability.

In terms of product application scenarios, the Suzuki motorcycle brake parts product is perfect for both casual and professional riders. Whether you are a weekend warrior or a professional rider, this product can provide the performance and safety you need. Additionally, if you are into off-road riding, these brake parts are perfect for enhancing your bike's braking system, ensuring that you can stop quickly and safely.

In summary, the Suzuki motorcycle brake parts product is an excellent choice for those who want to upgrade their motorcycle's braking system. It is compatible with Suzuki motorcycles, specifically the GN125 model number, and is of the disc brake type. The package content includes one set of brake parts, making it easy to replace the old or broken parts. This product is recommended for a wide range of product application occasions and scenarios, including electric bike parts, Kawasaki hydraulic parts, and brake system parts. It is perfect for both casual and professional riders, and is ideal for off-road riding.

Customization:

Customize your Suzuki motorcycle brake spare parts with our product customization services! Our parts are compatible with Suzuki motorcycles, including the GN125 model. Made in Japan with high-quality materials, our disc brake parts come in a sleek silver color. With a 1-year warranty, you can trust that our electric bike parts and electric motorcycle parts will keep your bike running smoothly. Choose us for all your brake customization needs!

Support and Services:

Suzuki offers technical support and services for its motorcycle brake parts to ensure that customers are satisfied with their products. The technical support team is available to answer any questions or concerns that customers may have regarding the installation or maintenance of their brake parts. Suzuki also provides a range of services including repair and replacement of brake parts, as well as regular maintenance and inspection to ensure optimal performance. Additionally, Suzuki offers training and education programs for mechanics and technicians to ensure that they are knowledgeable and skilled in working with Suzuki brake parts.

Packing and Shipping:

Product Packaging:

The Suzuki motorcycle brake parts will be packaged in a sturdy cardboard box with proper insulation and padding to ensure safe transportation. The package will also include a packing slip and any necessary documentation.

Shipping:

Our standard shipping method is via FedEx or UPS and will take 3-5 business days for delivery. Additional shipping options such as express or overnight delivery can be selected at checkout for an additional fee. We will provide a tracking number once the order has been shipped so that you can track the status of your delivery.

FAQ:

Q: What are the brake pad dimensions for the Suzuki GN125?

A: The brake pads for the GN125 measure 55mm x 38mm x 9mm.

Q: Are these brake pads compatible with the 2019 model of the GN125?

A: Yes, these brake pads are compatible with all GN125 models.

Q: What material are the brake pads made of?

A: The brake pads are made of high-quality organic materials for optimal stopping power and durability.

Q: How many brake pads are included in a set?

A: Each set includes two brake pads, one for the left and one for the right brake caliper.

Q: What is the expected lifespan of these brake pads?

A: The lifespan of the brake pads will depend on various factors such as riding style and frequency of use, but on average they can last up to 12,000 miles.
